RUIN AND WASTE

Appear in the Once Pri

SUBURBS DESTROYED BY FIRE.

Digs and Dogs Eating the Corpses Left in the City-Allies Busy Re moving the Bodies-Japanese and French Elags Predominate-Chinese Losses Number 11,000.

TIEN TSIN, July 18, Via SHANG-HAL July 24.-Colonel Bower, of the Chinese regiment; Colonel Wogack, of the Russians, and Colonel Aaki, of the Japanese, will form the joint provisional government for the city of Tein, which it was recently decided to establish. They will be entrusted with the task of bringing something like order out of the existing chaos.

Since the issue of the proclamation inviting well-disposed Chinese to return to their homes, a number have come back to the city and many nativ servants are coming to the settlements a majority of them returning to the service of their previous employers. Presented an Appalling Spectacle.

The native city this afternoon presents an appalling spectacle of ruin and desolution. The suburbs were completely destroyed by fire, mostly caus ed by the shells of the allies on the side facing the settlements. It is believed that not a dozen houses are intact and all were a little damaged by the tremendous fire of the allies' artillery, which, however, was apparently not heavy enough to produce much effect. A curious spectacle is presented of a number of mud-hovels immediately underneath the wall, where the latter was most damaged, hardly one of them showing signs of having been hit.

French Apparently the Favorites.

Inside the city the damage was terri-fic. The buildings nearest the wall were mostly gutted by fire, and many were totally blown to pleces by the shells of the allies. Among the smouldering rulns are many charred corpses,

which the pigs and dogs are eatins.

The allies are busy removing the bodies; but, in consequence; of the great number of dead, many have not yet been buried. The streets throughout the city are strewn with all kinds of articles, and dozens of Chinese are digging in the ruins for money and other valuables. Most of the houses which are intact or little damaged display the flags of one or the other of the allied forces, the Japanese and French flags predominating. There have been many attempts to imitate the flags, under other circumstances, would be laughable.

The Damage Terrific.

The houses which do not display flags show bits of cotton or paper bearing the names of the allied nations and complimentary sentences. The Freuch, apparently, are the favorites, many of the pieces of cotton and paper display-ed bearing the inscription "France" or "Vive la France." All are unmistakably in the hand-writing of native clerks, formerly employed by foreign It is stated that the Chinese losses

since the troubles broke out are 11,000, most of whom have been killed by Boxers and soldiers. This is probably much exaggerated.

The Boxers are said to be gathering in large numbers in the neighborhood of Hisikon argenal, captured by Admiral Seymour's column and now occupied by Russian troops, who have suffered several casualties through "slippers" con-cealed in the woods in that vicinity.

In order to succeed as a political orator a man must be able to conceal facts behind deceptive words.

No matter how insignificant a man may be, he firmly believes that his superiority will some day be recognized.

If a man who hoards his riches and enjoys them not he is a fit companion for the donkey that lives on thisties when grass is plenty—Chicago News.

"Web" Davis a Plagiarist.

New York Times: If Mr. Webster New York Times. All weester Davis, the Boer emissary, who used to be assistant secretary of the interior, is to be deprived of his reputation for the making of eloquent political specches, and get in its place only recognition as a good judge of other men's oratory, his situation will become really oratory, his situation will become really a pitiable one. And such seems to be the probability. At any rate, it is directly charged that the best passages in his address at the recent ratification in Lincoin were lifted bodily from the published utterances of James A. Garfield. A dispatch in the St. Louis Globe-Democrat says that the other day one member of a group of politicians sitting on a lawn in Canton, O., amused himself by reading aloud a report of Mr. Davis's Lincoln speech. The listeners showed only a languid in listeners showed only a languid terest till be came to these words: ' want no classes of society in this coun-try. We want no millionaire class, no aristocratic class, no poor class. So-clety must not be as it is in England, fixed in layers like the layers of clay and of stone in the earth's crusti one upon the other—". Then one of the group interrupted with: "Stop! That is from Garfield. I heard him make use of the same thing here in Chuton.

Doesn't Davis go on to say that our society should be like the ocean, each drop mingling with the others?" The reader continued: "Society in this country must be rather like the sea, so in all its parts that every grain of sand that mingles with the waters it the bottom may rise through all the currents until it glitters like a jewel on the crest of the highest wave." Then a book containing Garfield's speeches was brought out, and after a little search it was discovered that the Davis figure was there not once, but three times, almost word for word, and that several other bits of the ex-assistant secretary's elequence had been sistant secretary's eloquence had been taken from the same source, always without a trace of credit.

Draper Will Resign.

WORCESTER, Mass., July 24.—The Gazette has a special from its Milford correspondent, announcing that Gen eral W. F. Draper of Milford has sen to Washington his letter of resignation as ambassador of the United States to Italy. The announcement is declared authoritative and General Draper's decision is said to be final.

The reason given is necessity of attention to his private business.

Declines an Office

WASHINGTON, D. C., July 24.-Ex-Representative George M. Curtis, of Iowa, has declined the office of first assistant postmaster general.

FINANCE AND TRADE.

The Features of the Money and Stock Markets.

NEW YORK, July 25 .- Money on call steady at 14.61% per cent. Prime mer-cantile paper 4.64% per cent. Sterling exchange firm at \$4 87%@4,87% for demand and at \$4 83%@4 83% .for sixty days; posted rates \$4.84\@4.85 and \$4.88\@4.88\\days. Commercial bills \$4.83\\@4.83\\days. Bar silver 60\\days. Silver certificates 614@624c. Mexican dollars 48c. Government bonds strong.

State bonds weak.

Railroad bonds irregular.

The attempt to take speculative pro-fits in the market barren of any real buying demand had its natural result in a further decline of prices to-day, The reaction which set in yesterday also encouraged the putting out of some fresh short lines. But the bears were by no means aggressive in their operations and the speculators on the long side were apparently well enough forti-fied to be free from the necessity of liguidating on a rapidly falling market. The declining tendency of prices consequently showed abatement as the day wore on and the closing was fairly steady, but at fractional net declines as the rule. There was no evidence of re-newed manipulation for an advance the one or two strong spots which were in evidence during the day appearing to be due to independent causes. Ameri-can Tobacco was well bought on the belief that the forthcoming report will show extraordinary earnings. Metropolitan Street Rallway was marked up 31/2 from the low point without any news to explain the movement. There were firm spots also in the railroad list, notably in Southern Pacific and Southern Rallway preferred. But these did not represent any aggressive stand against the reaction. The cessation of the pressure to realize aroused a natural explanation that the bulls were ready to resume their efforts for an advance. While this expectation checked the operations by the bears the effort to rally prices was not forthcoming. The conditions in foreign markets were a depressing influence here, especially the fear reported both from London and on the continent of approaching stringency in the money market. This fear was based on the high rate of interest which the British treasury was objiged to pay on yesterday's allotment of treasury bills and on the expectation that further war loans are to be forthning. The absence of engagements gold for export by to-morrow's steamer, although they had been counted upon, did not seem to relieve the market of its apprehension of future demands from abroad upon the local

money market. The week's advance in

sterling at Paris and the remission of

the Bank of France's offer on interest

on gold in transit have apparently wiped out the profit oh exports to

France. But money in London contin-ues firm and sterling exchange here

advanced a fraction and it is consider-

ed certain that the receipt of gold from

western points will be followed by re-

newed outgo of the metal. The current

ease of call loans is to be attributed as

much to the desire of lenders to keep their funds in easily accessible shape as

to any plethora of idle funds seeking employment. New York bankers are

practically out of the market for mer-

cantile paper and they continue loath to put out funds in time loans for any

long period. The sub-treasury has supplied about \$1,000,000 to the money mar-

ket on balance since Friday, but this

has been on a declining scale and to-day's debit balance at the elearing

house against the government institu-tion was less than \$80,000. Reports of

an attempted adjustment of various

matters in dispute between the New

York Central and its employes, the failure to advance refined sugar as ex-

such a thing as a wheat market in this city. The market naturally began to decline, and as it went down stop loss orders were caught and the liquidation thus induced helped the slump along. Liverpool said that Argentine wheat was being offered cheap and that the English talent expected liberal arrivals from Russia. Not until September bumped up against 74%c, the bottom of the present decline—did the market receive much support. Soon after the cash part of the market began to attract attention. Cash people had sold between 500,000 and 700,000 bushels, most of it hard Kansas, and were covering in the pit. Shorts were further joited by a cable announcing a reduction in the estimate of the French crop from 310,000,000 bushels to 250,000,000. Trade became active and September ralled steadily to 75%c, and closed soon after in a firm condition, September 140%d over yesterday at 75½475%c. New York reported thirty-one loads taken for export and of the cash sales here 30,000 bushels were reported sold direct to the other side. Seaboard clearances in wheat and flour were equal to 102,000 bushels. Primary receipts aggregated 157,000 bushels. Compared with 759,000 bushels. Primary receipts aggregated 157,000 bushels compared with 759,000 bushels. Primary receipts aggregated 157,000 bushels compared with 759,000 bushels. Liverpool cables were also in an influence in this direction. Liquidation was renewed early and the price fell off over a cent. There was still a good cash demand, but the smallness of country offerings made it hard to find sellers and this, together with the reaction in wheat caused a partial recovery later. Trade was quiet. September sold believe as 34% can 374c. closine 30 demand, but the smallness of country offerings made it hard to find sellers and this, together with the reaction in wheat caused a partial recovery later. Trade was quiet. September sold believes a 34% can 374c. closine 30 demand.

sellers and this, together with the reaction in wheat caused a partial recovery later. Trade was quiet. September sold between 38½c and 37½c, closing ¼c under yeaterday at 37½c. Receipts were 289 cars.

Onts were quiet. The market felt the heaviness in wheat and corn early, but at no time was there such general selling as had been experienced in the corn and wheat pits. Receipts were eighty-six cars. September sold between 23½c and 22¾c, closing ¼c under yesterday at 23c.

Provisions were dull and fluctuated under the guidance of wheat and corn. The shipping demand for product was fair, but the outside trade was Indifferent. Packers were not buying und

fair, but the outside trade was indiffer-ent. Packers were not buying and hogs were lower at the yards. The close however, was steady. September pork sold between \$11 70 and \$11 90, and clos-ed 15c under yesterday at \$11 77½; Sep-tember, lard between \$6 7046 72¼ and \$6 75% closing 2½ down at \$6 75% and September ribs between \$6 87% and
